Front-End Developer | Mobile Application Developer | Computer Engineer

SUMMARY

Front-end and mobile developer with a Master's in Computer and Communication Engineering and over 3 years of experience building web and mobile applications. Shipped 4+ production web apps and 10+ cross-platform mobile apps for clients across e-commerce, catering, and system management. Works mainly in React.js, React Native, TypeScript, and the Refine framework, with backend integration in PHP and REST APIs. Also published 2 open-source NPM packages extending the Refine ecosystem.

CORE COMPETENCIES

Frontend Development, Mobile Development, Web Applications, Cross-Platform Delivery, API Integration, Component Architecture, Technical Mentoring, Agile Workflows, Backend Integration, User Experience.

PROFESSIONAL EXPERIENCE

Front-End Web and Mobile Developer | Ucheed Company **July 2024 – July 2026**

- Architected and shipped 4+ production web applications using Refine, React.js, TypeScript, Vite, and Ant Design through a shared and scalable component architecture.
- Built and launched cross-platform mobile applications with React Native for T-Monit, Faqra Catering, MetreKarre, and 8+ additional client projects across industries.
- Streamlined data management workflows across MetreKarre, Aligned, Prospect, Mawkai, ViralNerdz, and 10+ platforms using the Refine framework effectively and consistently every release.
- Engineered and maintained back-end integrations using PHP and WordPress with a custom REST API framework enabling seamless data flow across application layers.
- Authored and published 2+ open-source NPM packages extending the Refine ecosystem, improving reusability across internal and external client projects and teams.

Front-End Developer | Eurisko Mobility Company **February 2024 – May 2024**

- Completed a rigorous 14-week full-time front-end development program, shipping 6 end-to-end project assessments built in React.js and React Native with mentorship.
- Built responsive, accessible web interfaces using HTML, CSS, Bootstrap, Tailwind, and Material UI, applying mobile-first design principles across multiple client projects.
- Developed production-style React applications using functional components, hooks, and React Router, optimizing render performance across multi-screen applications.
- Built cross-platform mobile apps in React Native with Stack, Tab, and Drawer navigation, Context API, Redux Toolkit, and custom reusable animations.
- Applied professional software development workflows including Git version control, Agile sprint cycles, CI/CD pipelines, and automated testing with Jest across projects.

Web Developer Intern | Inventus Agency **November 2023 – February 2024**

- Developed responsive front-end user interfaces using ReactJS, delivering clean layouts and smooth user experiences across multiple project assignments and client deliverables.
- Integrated RESTful APIs with Node.js, Express.js, and MongoDB, enabling reliable data flow between client applications and backend services across environments.
- Collaborated with the development team on MERN stack projects, contributing to feature implementation and troubleshooting across the full application and lifecycle.

Mobile Developer Intern | Ositcom **July 2023 – September 2023**

- Developed responsive front-end user interfaces using React Native, applying modern component patterns and styling techniques for mobile-focused application screens and client demos.
- Contributed to React Native mobile development tasks, supporting the team in building, and refining cross-platform application features and layouts across devices.
- Gained hands-on exposure to professional mobile development workflows, learning best practices in code structure, review processes, and feature delivery across sprints.

EDUCATION

Lebanese International University (LIU) **Tripoli, Lebanon**

- Masters in Computer and Communication Engineering **June 2023**
- Bachelor of Science in Communication Engineering **June 2021**
    - Graduated with Honors, GPA 3.49/4, named to the Distinguished List.

SKILLS

Technical Skills: React.js, React Native, JavaScript, TypeScript, Next.js, Ant Design, Tailwind CSS, PHP, WordPress, REST APIs, Git, GitHub, CI/CD, Jest, Refine, Basic knowledge in PHP, N8N, and Prompt Engineering.

Soft Skills: Problem Solving, Team Communication, Attention to Detail, Fast Learner, Adaptability, Patience, Critical Thinking, Mentoring, Student Assessment, Collaboration, Time Management.

LANGUAGES

Arabic (native), **English** (professional working proficiency).
